FIRST REGULAR SESSION

SENATE BILL NO. 100

95TH GENERAL ASSEMBLY

INTRODUCED BY SENATOR SCHAEFER.

Pre-filed December 3, 2008, and ordered printed.

0521S.02I

TERRY L. SPIELER, Secretary.

AN ACT

To repeal section 260.750, RSMo, and to enact in lieu thereof four new sections relating to transportation of radioactive waste.

Be it enacted by the General Assembly of the State of Missouri, as follows:

Section A. Section 260.750, RSMo, is repealed and four new sections

- 2 enacted in lieu thereof, to be known as sections 260.392, 260.398, 260.399, and
- 3 260.750, to read as follows:

260.392. 1. As used in this section, the following terms mean:

- 2 (1) "Cask", all the components and systems associated with the 3 container in which spent fuel, high-level radioactive waste, highway
- 4 route controlled quantity, or transuranic radioactive waste are stored;
- 5 (2) "Shipper", the generator, owner, or company contracting for
- 6 transportation by truck or rail of the spent fuel, high-level radioactive
- 7 waste, highway route controlled quantity shipments, transuranic
- 8 radioactive waste, or low-level radioactive waste;
- 9 (3) "High-level radioactive waste", the highly radioactive material
- 10 resulting from the reprocessing of spent nuclear fuel including liquid
- 11 waste produced directly in reprocessing and any solid material derived
- 12 from such liquid waste that contains fission products in sufficient
- 13 concentrations, and other highly radioactive material that the Nuclear
- 14 Regulatory Commission has determined to be high-level radioactive
- 15 waste requiring permanent isolation;
- 16 (4) "Highway route controlled quantity", as defined in 49 CFR
- 17 Part 173.403, as amended, a quantity of radioactive material within a
- 18 single package. Highway route controlled quantity shipments of thirty
- 19 miles or less within the state are exempt from the provisions of this
- 20 section;

SB 100 2

- 21 (5) "Low-level radioactive waste", any radioactive waste not 22classified as high-level radioactive waste, transuranic radioactive 23waste, or spent nuclear fuel by the United States Nuclear Regulatory Commission, consistent with existing law. Shipment of all sealed 24sources meeting the definition of low-level radioactive waste, shipments 25of low-level radioactive waste that are within a radius of no more than 26 fifty miles from the point of origin, and all naturally occurring 27radioactive material given written approval for landfill disposal by the 2829 Missouri department of natural resources under 10 CSR 80-3.010 are exempt from the provisions of this section. Any low-level radioactive 30 waste that has a radioactive half-life equal to or less than one hundred 31 twenty days is exempt from the provisions of this section; 32
- 33 (6) "Spent nuclear fuel", fuel that has been withdrawn from a 34 nuclear reactor following irradiation, the constituent elements of which 35 have not been separated by reprocessing;
- 36 (7) "State-funded institutions of higher education", any campus 37 of any university within the state of Missouri that receives state 38 funding and has a nuclear research reactor;
- (8) "Transuranic radioactive waste", defined in 40 CFR Part 191.02, as amended, as waste containing more than one hundred nanocuries of alpha-emitting transuranic isotopes with half-lives greater than twenty years, per gram of waste. For the purposes of this section, transuranic waste shall not include:
 - (a) High-level radioactive wastes;

44

- (b) Any waste determined by the Environmental Protection
 46 Agency with the concurrence of the Environmental Protection Agency
 47 administrator, that does not need the degree of isolation required by
 48 this section; or
- 49 (c) Any waste that the Nuclear Regulatory Commission has 50 approved for disposal on a case-by-case basis in accordance with 10 51 CFR Part 61, as amended.
- 2. Any shipper that ships high-level radioactive waste, transuranic radioactive waste, highway route controlled quantity shipments, spent nuclear fuel, or low-level radioactive waste through or within the state shall be subject to the fees established in this subsection, provided that no state-funded institution of higher education that ships nuclear waste shall pay any such fee. These

SB 100 3

58 higher education institutions shall reimburse the Missouri state 59 highway patrol directly for all costs related to shipment escorts. The 60 fees for all other shipments shall be:

- 61 (1) One thousand eight hundred dollars for each cask transported through or within the state by truck of high-level 62 radioactive waste, transuranic radioactive waste, spent nuclear fuel, or 63 highway route controlled quantity shipments. All casks of high-level 64 radioactive waste, transuranic radioactive waste, spent nuclear fuel, or 65 highway route controlled quantity shipments transported by truck are 66 subject to a surcharge of twenty-five dollars per mile for every mile 67 over two hundred miles traveled within the state; 68
- (2) One thousand three hundred dollars for the first cask and one hundred twenty-five dollars for each additional cask for each rail shipment through or within the state of high-level radioactive waste, transuranic radioactive waste, or spent nuclear fuel;
- (3) One hundred twenty-five dollars for each truck or train transporting low-level radioactive waste through or within the state. The department of natural resources may accept an annual shipment fee as negotiated with a shipper or accept payment per shipment.
- 3. All revenue generated from the fees established in subsection
 2 of this section shall be deposited into the environmental radiation
 monitoring fund established in section 260.750 and shall be used by the
 department of natural resources to achieve the following objectives and
 for purposes related to the shipment of high-level radioactive waste,
 transuranic radioactive waste, highway route controlled quantity
 shipments, spent nuclear fuel, or low-level radioactive waste, including,
 but not limited to:
- 86 (1) Inspections, escorts, and security for waste shipment and 87 planning;
 - (2) Coordination of emergency response capability;

88

- 89 (3) Education and training of state, county, and local emergency 90 responders;
- 91 (4) Purchase and maintenance of necessary equipment and 92 supplies for state, county, and local emergency responders through 93 grants or other funding mechanisms;
- 94 (5) Emergency responses to any transportation incident

SB 100

95 involving the high-level radioactive waste, transuranic radioactive 96 waste, highway route controlled quantity shipments, spent nuclear fuel, 97 or low-level radioactive waste;

- (6) Oversight of any environmental remediation necessary resulting from an incident involving a shipment of high-level radioactive waste, transuranic radioactive waste, highway route controlled quantity shipments, spent nuclear fuel, or low-level radioactive waste. Reimbursement for oversight of any such incident shall not reduce or eliminate the liability of any party responsible for the incident; such party may be liable for full reimbursement to the state or payment of any other costs associated with the cleanup of contamination related to a transportation incident;
- (7) Administrative costs attributable to the state agencies which are incurred through their involvement as it relates to the shipment of high-level radioactive waste, transuranic radioactive waste, highway route controlled quantity shipments, spent nuclear fuel, or low-level radioactive waste through or within the state.
- 4. Nothing in this section shall preclude any other state agency from receiving reimbursement from the department of natural resources and the environmental radiation monitoring fund for services rendered that achieve the objectives and comply with the provisions of this section.
- 5. The department of natural resources, in coordination with the department of health and senior services and the department of public safety, may promulgate rules necessary to carry out the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2009, shall be invalid and void.
- 6. All funds deposited in the environmental radiation monitoring fund through fees established in subsection 2 of this section shall be

132 utilized, subject to appropriation by the general assembly, for the 133 administration and enforcement of this section by the department of natural resources. All interest earned by the monies in the fund shall 134 135 accrue to the fund.

- 136 7. All fees shall be paid to the department of natural resources 137 prior to shipment.
- 138 8. Notice of any shipment of high-level radioactive waste, transuranic radioactive waste, highway route controlled quantity 139 shipments, or spent nuclear fuel through or within the state shall be 140 provided by the shipper to the governor's designee for advanced 141 notification, as described in 10 CFR Parts 71 and 73, as amended, prior 142to such shipment entering the state. Notice of any shipment of low-143level radioactive waste through or within the state shall be provided 144 145by the shipper to the Missouri department of natural resources before 146 such shipment enters the state.
- 9. Any shipper who fails to pay a fee assessed under this section, or fails to provide notice of a shipment, shall be liable in a civil action 148 149 for an amount not to exceed ten times the amount assessed and not paid. The action shall be brought by the attorney general at the request of the department of natural resources. If the action involves 152a facility domiciled in the state, the action shall be brought in the 153 circuit court of the county in which the facility is located. If the action does not involve a facility domiciled in the state, the action shall be brought in the circuit court of Cole county.
 - 10. Beginning on December 31, 2009, and every two years thereafter, the department of natural resources shall prepare and submit a report on activities of the environmental radiation monitoring fund to the general assembly. This report shall include information on fee income received and expenditures made by the state to enforce and administer the provisions of this section.
 - 11. The provisions of this section shall not apply to high-level radioactive waste, transuranic radioactive waste, highway route controlled quantity shipments, spent nuclear fuel, or low-level radioactive waste shipped by or for the federal government for military or national defense purposes.
 - 12. Under section 23.253, RSMo, of the Missouri sunset act:
- 168 (1) The provisions of the new program authorized under this

SB 100 6

5

169 section shall automatically sunset six years after the effective date of 170 this section unless reauthorized by an act of the general assembly; and

- (2) If such program is reauthorized, the program authorized 171 172under this section shall automatically sunset twelve years after the effective date of the reauthorization of this section; and 173
- 174(3) This section shall terminate on September first of the calendar year immediately following the calendar year in which the 175176 program authorized under this section is sunset.

260.398. Shipments by rail of high level radioactive waste, transuranic radioactive waste, or spent nuclear fuel shall move across the state of Missouri as quickly as possible, making infrequent stops only as required by severe circumstances or as required by state or federal regulations, and shall avoid stopping in populated areas.

260.399. Pregnant employees shall have the right to refuse to work in or around shipments of high level radioactive waste, transuranic radioactive waste, or spent nuclear fuel without penalty.

260.750. 1. The department of natural resources shall develop an 2 environmental radiation monitoring program for the purpose of monitoring radioactivity in air, water, soil, plant and animal life as necessary to insure the protection of the public health and safety of the environment from radiation hazards.

2. There is hereby created within the state treasury an "Environmental 6 Radiation Monitoring Fund". In addition to general revenue, the department of natural resources is authorized to accept and shall deposit in said fund all gifts, bequests, donations, or other moneys, equipment, supplies, or services from any state, interstate or federal agency, or from any institution, person, firm, or 10 corporation, public or private, as well as fees collected under subsection 2 11 of section 260.392. This fund shall be used for the environmental radiation 1213 monitoring program established in this section and to administer and enforce the provisions of section 260.392. 14
